I had a lot of victory's and yard's . also had a heady topper from my cousin- very nice.

I will give you a call later today- our TSCA program is getting worked up about ben use and PCBs. I am trying to supply some perspective.

Hi Paul.

I had many good beers this Turkey season and I hope you did too.

ASTSWMO has done various surveys and actually is probably due for update since last one all ben uses was Nov 2007.

http://www.astswmo.org/files/policies/Solid_Waste/2007BUSurveyReport11-30-07.pdf

I do know levels in one state may be different in others. NJ for example was able to send material to PA that was not allowed in NJ.

I think for more details of the latest that is going on I would contact either Kathy Prather, NY (Chair)

kathleen.prather@dec.ny.gov of the Ben use Task force or the Region 3 rep Mindy Anthony, DE

mindy.anthony@state.de.us.

http://www.astswmo.org/files/MM_Roster.pdf

I would be happy to chat with you. I am in today and Wednesday.

Tomorrow I am meeting with Betters.

Mike

Mike- do you have any time to give me a national perspective on "beneficial use" of soils that may have some level of contamination in them, but are permitted under various state programs to be used under general permits as construction fill? Looks like it is becoming an issue for our TSCA program and I want to see what ATSWMO folks are saying about it. Give me a time and I'll call you

Thanks- enjoy your victory and turkey holiday!
